PROFESSIONAL SUMMARY

Senior Software Developer with **12+** years of hands-on and senior software developer experience building enterprise applications using .NET Core, C#, SQL Server, and Microsoft Azure. Proven record of architecting, developing, and delivering large-scale enterprise platforms across HR, Corporate Finance, Engineering, Procurement, Construction, Legal, and Healthcare domains. Skilled in full SDLC ownership, code quality and architecture reviews, cloud-based solution design, database optimization, and mentoring development teams. Strong background in Agile/Scrum delivery, CI/CD practices, and cross-functional collaboration with business and engineering stakeholders using Agile (Scrum/Kanban) methodologies.

CORE TECHNICAL SKILLS

- **Languages & Frameworks:** C#, .NET Core, ASP.NET MVC, JavaScript
- **Cloud & DevOps:** Microsoft Azure, Azure DevOps, CI/CD Pipelines, Git, TFS
- **Databases:** SQL Server (Design, Query Optimization, Stored Procedures, Performance Tuning)
- **Architecture & Practices:** SDLC, Agile/Scrum, Kanban, Code Review, Unit Testing, API Design
- **Tools:** Visual Studio, Visual Studio Code, Jira, Power BI, GitHub Copilot
- **Methodology:** Agile (Scrum/Kanban)

PROFESSIONAL EXPERIENCE

Specialist – Software Engineering | LTIMindtree, Mumbai, India

June 2021 – Jun 2026

Led technical delivery for L&T Group companies (L&T Corporate IT, L&T Realty, L&T Construction), overseeing a development team of 15+ engineers building enterprise solutions on .NET, Java, SQL Server, and Azure Cloud.

- Developed and drove technical architecture, code quality, and delivery standards across a multi-account portfolio, achieving 95%+ on-time delivery while reducing production risk exposure by 20% through rigorous code reviews and release governance.
- Partnered with business and technology stakeholders to translate requirements into technical designs and delivery roadmaps for enterprise platforms.
- Led technical change management and system rollouts, improving user adoption of newly deployed applications by 30% through hands-on training and support.
- Mentored developers in .NET, SQL Server, and Agile engineering best practices (Scrum/Kanban), improving team delivery productivity by 15%.
- Enforced coding standards, technical governance, and ISO-aligned quality processes across all delivered applications.
- Developed and delivered enterprise applications across HR, Corporate Finance, Procurement, and Construction domains, working across the full development lifecycle including design, coding, testing, and deployment.
- Contributed to digital transformation initiatives, building and integrating features that accelerated time-to-market for enterprise clients.

Software Developer | Innovsource Services Pvt. Ltd., Mumbai, India

Dec 2017 – Jun 2021

- Developed HR and MIS reporting solutions using .NET and SQL Server, improving reporting performance by 45% and accelerating business decision-making.

- Mentored junior developers and contributed to enterprise architecture and technical governance discussions, raising team efficiency by 25%.

Software Engineer | SA-Techno Consulting Services, Mumbai, India

May 2016 – Dec 2017

- Developed regulatory-compliant applications for B. Braun Medical India, reducing audit preparation time by 20%.
- Supported service delivery and technical operations, contributing to improved SLA compliance.

Software Developer | Intellect Software Solutions, Mumbai, India

Apr 2014 – May 2016

- Built enterprise applications using .NET technologies for real estate, sales, and marketing business lines.

KEY TECHNICAL PROJECTS

- **Narada** – SEBI Compliance Reporting Platform: Designed and delivered a compliance reporting system enabling group companies to submit and corporate secretarial teams to review regulatory event disclosures.
- **Bid Advisory & Commodity Hedge Management System**: Built a treasury platform for managing bid advisory requests and tracking bid status, improving visibility for the finance function.
- **HRMS Digitalization**: Developed digitalized core HR workflows (TAN creation, profile updates, interviews, performance reviews) for the HR organization.
- **eClaim (Expense Management System)**: Built an automated expense claim submission and approval platform, reducing processing time and manual scrutiny effort.
- **Easy Skills (Skill Management Application)**: Developed a web-based platform for L&T Construction to track, evaluate, and manage employee technical skills, enabling skill-gap analysis and resource planning through dynamic skill matrices.
- **CDP (Common Digital Platform)**: Built a platform to digitize end-to-end business processes for road construction projects, enabling consolidated dashboards and centralized reporting.

CERTIFICATIONS

- LTIMindtree Certified Agile Practitioner (LCAP), 2024
- Certificate Program, AI4ICPS – IIT Kharagpur (Jan 2026)
- Certificate Program in Agentic AI – Johns Hopkins University / Great Learning (**In Progress**)
- ILead Program – LTIMindtree

AWARDS & RECOGNITION

- 2x MVP Award Winner – C# Corner
- Winner – Epic Squad (India & ME), Q2 FY24, LTIMindtree
- Spot Award – Super Crew 2024 and 2025, LTIMindtree

EDUCATION

- M.Sc. IT – Sikkim Manipal University, Manipal (2020)
- BCA – MU Bodhgaya, Patna (2012)

LANGUAGES

English, Hindi
